

MATHEMATICS DEPARTMENT "GUIDO CASTELNUOVO"

PhD PROGRAM IN MATHEMATICS

www.mat.uniroma1.it/dottorato

Mathematics

Students who choose the program in Mathematics are bright students fascinated by mathematical reasoning in its various aspects. Our Department offers a wide range of research topics, from the most abstract to those directly inspired by the natural sciences.

Applied Mathematics

Students who choose the program in Applied Mathematics are brilliant students who have great intellectual curiosity for scientific, technological, economic and social problems that can be addressed with mathematical methods. The curriculum in Applied Mathematics is an opportunity to widen the spectrum of their scientific knowledge, and to contribute to developing the role of mathematics in applications.
