Fourth Summer School in Analysis and Applied Mathematics
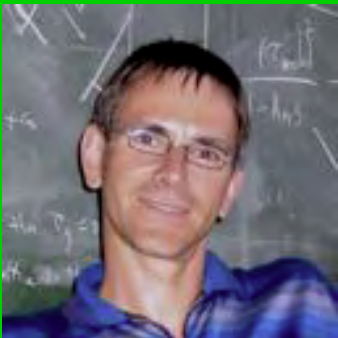

Rome June 11-15, 2007

Lectures will take place at the Dipartimento di Matematica "Guido Castelnuovo"
Università di Roma "La Sapienza", Piazzale Aldo Moro, Roma

Lecturers and Courses

JOHN M. BALL
University of Oxford

"Mathematical Problems of Liquid Crystals"

STEFAN MÜLLER
Max Planck Institute, Leipzig

"Rigidity in nonlinear elasticity and the derivation of lower dimensional theories"

VLADIMIR ŠVERÀK
University of Minnesota

"Aspects of Navier-Stokes and certain model equations"

Sponsors

Organizers:
ANDREA BRAIDES (Università di Roma "Tor Vergata")
ADRIANA GARRONI (Università di Roma "La Sapienza")
